Special and remedial education means facilities and resources including support personnel and equipment necessary for developing and implementing a special education program. Differently abled children are different than other kids. Special education focuses on helping kids with disabilities learn. The services and supports for one student may be very different from those of another student. Participants of this workshop gathered experience about the differently abled</p>

In the beginning of the Workshop Principal Dr. Nabanita Chakraborty had given a brief idea about the importance of mental health awareness in post Covid situation. Mental health is a state of mental well-being that enables people to cope with the stresses of life, realize their abilities, learn well and work well, and contribute to their community. It is an integral component of health and well-being that underpins our individual and collective abilities to make decisions, build relationships and shape the world we live in. Mental health is a basic human right. And it is crucial to personal, community and socio-economic development. Various topics like mental health and some mental

					<p>health issues, how to identify the negative coping behaviors that can be seen in adolescents and young people of their age and, probable disorders that could occur in this age. .some activities like dance movement activity, Gratitude journal and some relaxation exercises were conducted with the participants.</p> <p>Resource person Miss. 4.	Workshop on International Survivors of Suicide Loss Day	77	Psychological counselling cell and Education Department in association with Child in Need Institute	19.11.2022	<p>Convener- Chhaya Banerjee Secretary- Chinmayee Nanda Treasurer- Chinmayee Nanda</p> <p>International Survivors of suicide Loss day is an annual observance that is dedicated to supporting the loved ones of individuals who died by suicide. This year International Survivors of suicide</p>

Loss Day is 19th November, 2022. For the observance of this day an event was organized by Child in Need Institute in collaboration with Heramba Chandra College. The interactive awareness program was conducted by CINI (Child in Need Institute). The discussions were held on certain topics such as various myths and facts related to suicide, how suicidal behavior occurs and why it varies and how to recognize someone who might be having suicidal ideations using mindfulness etc.

The awareness program also saw a student of the college take the center stage and proudly share her story of survival and recovery.

The awareness program culminated with many questions and doubts that were raised by the participants.
